

RE: Clean Air Act (CAA) 112(r) (1) and (7) Inspection
JCI Jones Chemicals, Inc. – Milford, Virginia
16248 Industrial Drive
Milford, Virginia 22514
Date of Inspection: June 21, 2012

The following information is provided as requested during the above referenced inspection.

Description of Business Operations:

JCI Jones Chemicals, Inc. is a manufacturer, repackager and distributor of inorganic water and wastewater treatment chemicals that are used to provide water purification and disinfection to municipalities and other industries around the globe. The primary operations conducted at the JCI Milford, Virginia facility include the manufacturing of sodium hypochlorite solution (bleach), the repackaging of chlorine and sodium hydroxide solution, and the distribution of sulfur dioxide and sodium bisulfite solution. Raw materials used in the manufacturing and repackaging processes are delivered to the site in bulk quantities (railcars, tank trucks, etc.). Materials that are distributed are delivered to the site in pre-packaged containers. All material is delivered to our customers via highway. The regulated substances handled by this facility are chlorine and sulfur dioxide.
